

THÉA offers timeless elegance, without compromises

THÉA Minimal Aluminium Frames is a revolutionary minimal system for sliding windows and doors. Its true minimal design, clean lines and sleek frames, leave views unobstructed seamlessly merging interior and exterior spaces. The system's cutting-edge modularity and strength allows it to effortlessly carry large glass panes weighing up to a metric ton, providing limitless solutions for every design concept.

théa [EL: θέα]
(noun)

Théa = View

“Windows exist for the gaze to travel.
To reveal horizons.”

I cannot bear windows with no view
O. Elytis

Minimal

Enjoy a truly minimal frame with only 3 mm of visible aluminium on side sashes (pin-lock) and 20 mm on vertical posts.

Large Dimensions

Create large openings of up to 15 m² or more per sliding sash. Specially adapted for projects near the sea with challenging environments, the system's sashes are fitted with heavy duty stainless-steel rollers and rods, offering trouble-free fluid movement and unlimited weight loads per sash.

Performance

THÉA achieves outstanding performances in air permeability, water tightness and resistance to wind load even in the most extreme weather conditions and is perfectly suited for the passive house concept with excellent thermal efficiency through insulating materials in the profiles and energy-efficient glass.

Modularity

THÉA's cutting-edge modularity provides limitless configuration solutions and design options tailored to your requirements.

Functionality

The system's specially designed track and water drainage system ensure easy and efficient drainage of water to the outside of the structure.

Fabrication

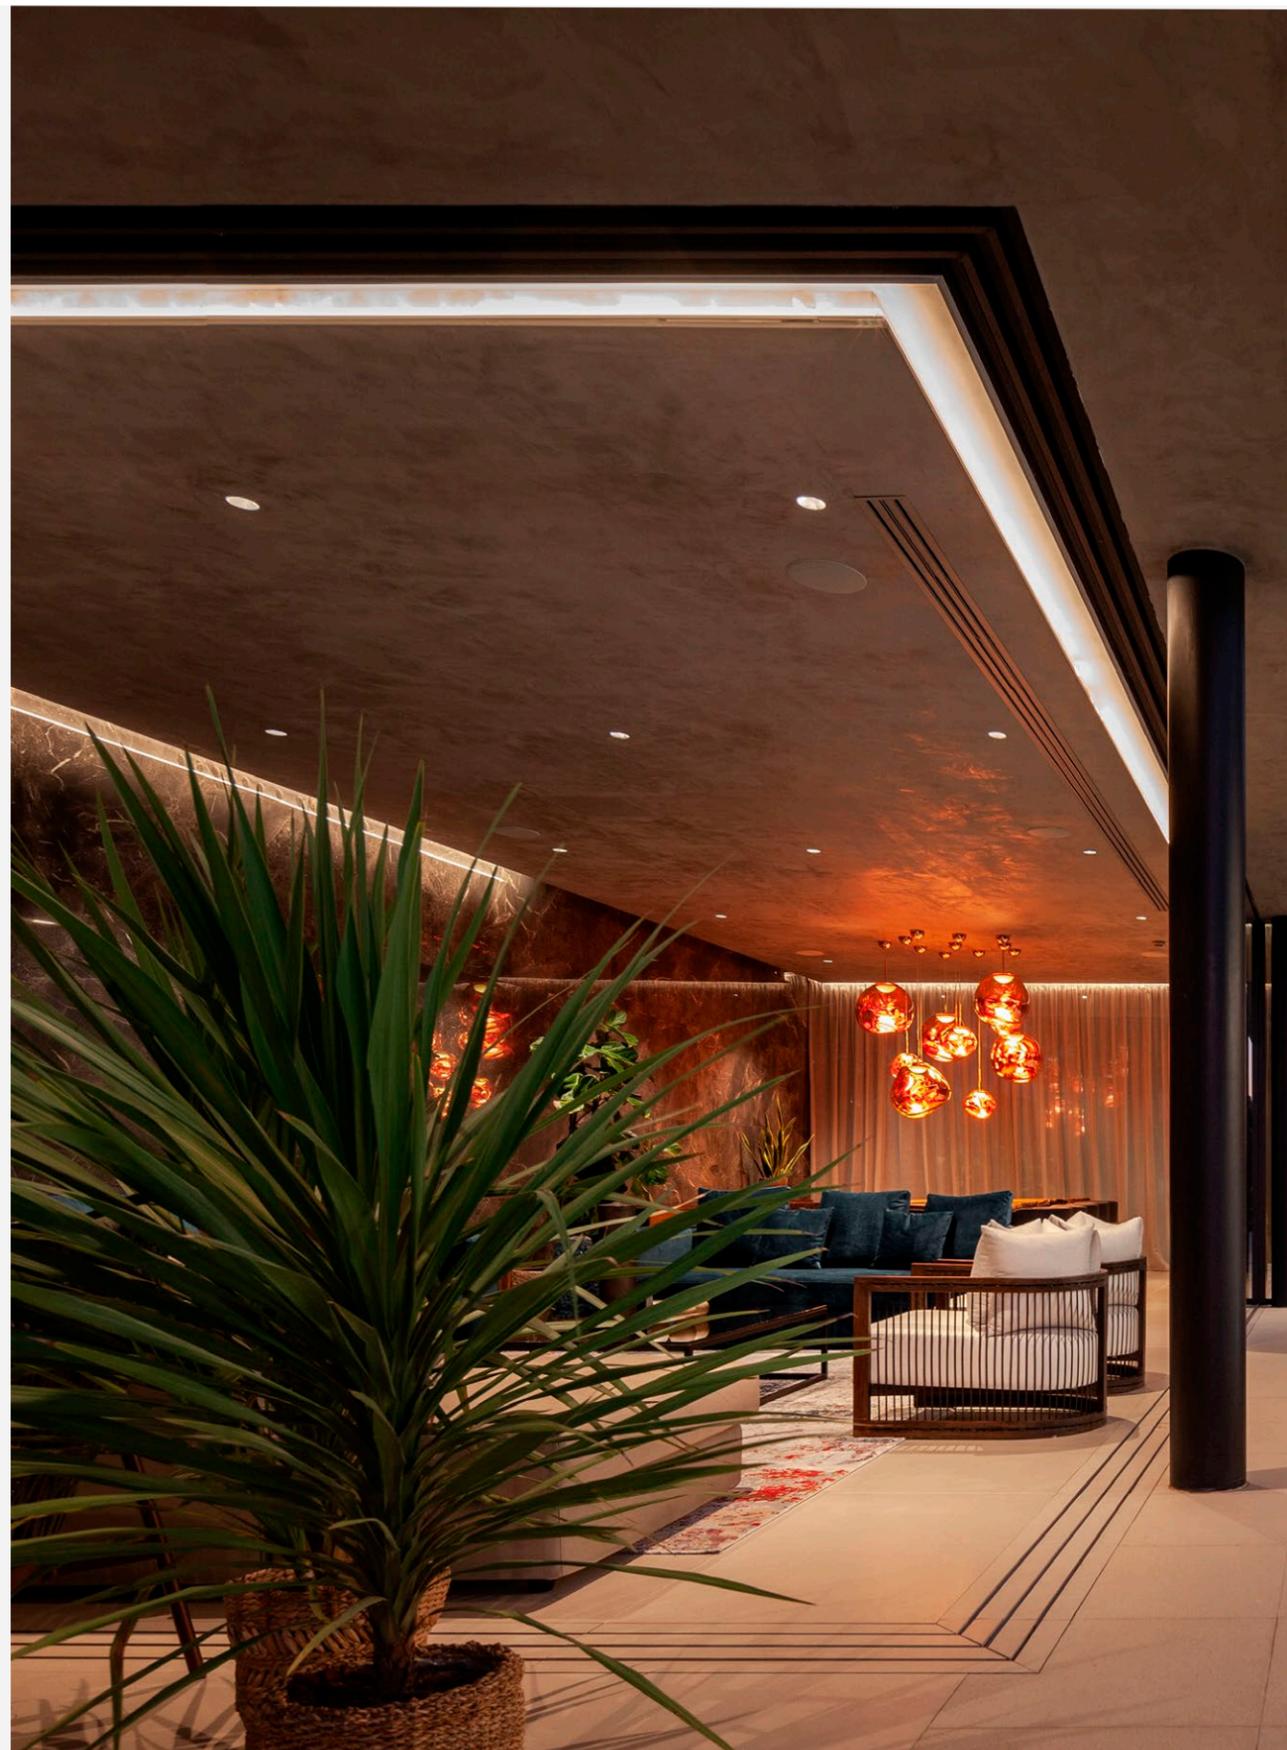

Glass panes are secured onto aluminium sashes with specialized structural silicone, fusing the frame and glass into one body for the highest levels of safety and security.

Colours & Finishes

Choose from high quality customisable or standard colours in any finish certified by Qualanod and Qualicoat.

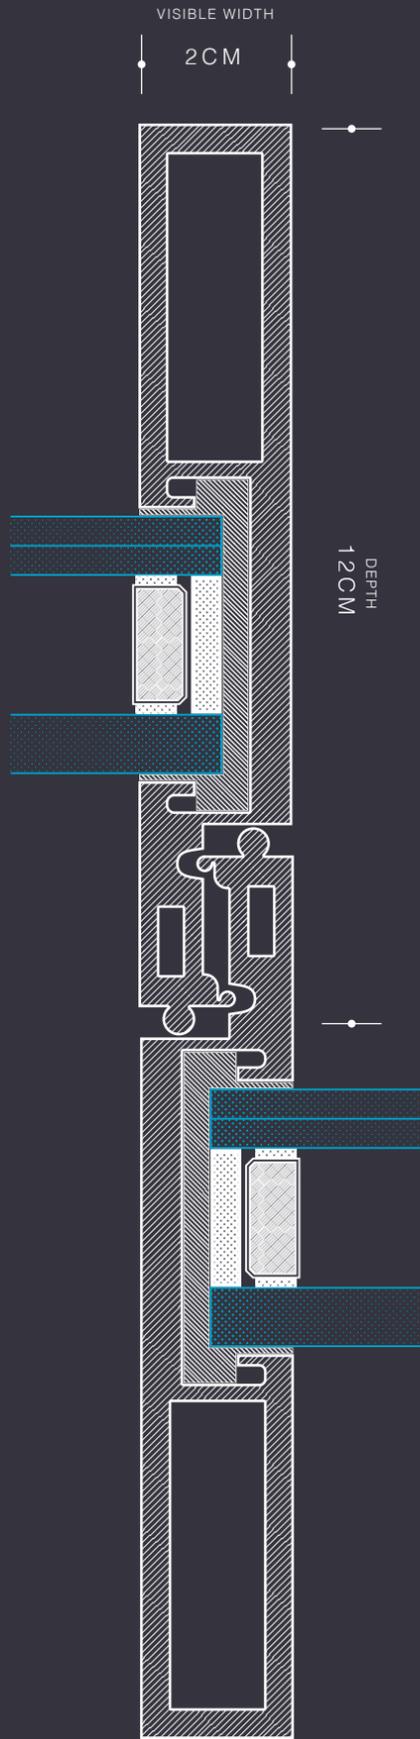

Security

Ensure the highest levels of security and burglar resistance through multiple locking points and customised heavy-duty locking hardware.

SIMPLY LIMITLESS

MINIMALIST VIEWS | CONTEMPORARY AESTHETIC

THÉA's modular design means limitless configurations.

Multiple track combinations, frame options including reverse post profiles and any number of sliding / fixed / alternating or symmetrical panes, creates a vast range of configuration possibilities, providing infinite solutions tailored to architectural requirements.

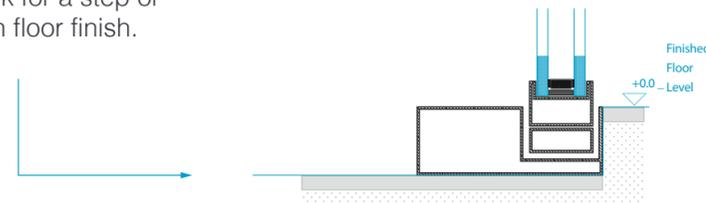

THÉA Concealed
 THÉA Concealed can be completely recessed in floors, walls and ceilings reducing visible aluminium and maximizing views. The system's track can be covered with the flooring's finish material for an exclusive invisible frame.

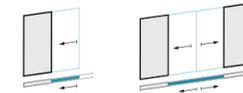

TWO MINIMALIST SYSTEMS

THÉA Classic
 embodies the minimalist aesthetic, equipped with visible track for a step or flush with floor finish.

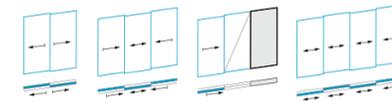

Configurations

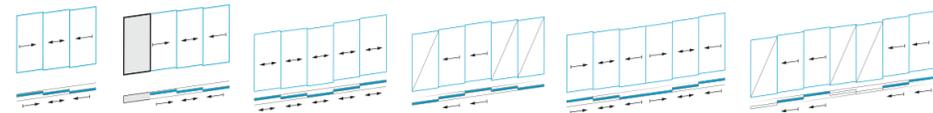

Single Track

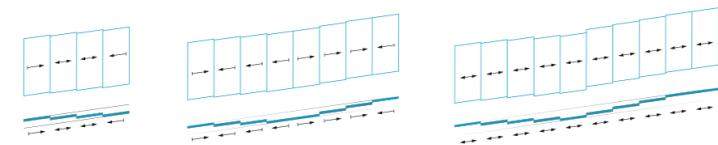

Double Track

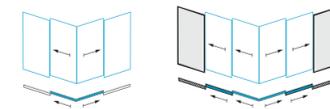

Triple Track

Multi Track

Corner Track

Technical Characteristics

Maximum Sash Area	15m ²
Maximum Sash Weight	1000 kg
Glass Thickness	32 & 34 mm
Glazing Method	Customised gasket for windows, structural silicone for doors and large openings

Performance & Classification

Thermal Transmittance Uw [W/(m ² K)]	≥ 1.2
Sound Reduction	Up to 40 dB
Air Permeability	Class 3
Water Tightness	Class 7A
Resistance to Wind Load	Class B3
Resistance to Frontal Deflection	Class B
